DIVAAKAR N

Machine Learning & AI–Focused Python Developer | Data Analyst
divaakarnaresh2005@gmail.com • linkedin.com/in/divaakar2005 • https://github.com/divaznx

Summary

Machine Learning enthusiast with Data Analysis skills strong in Python and data handling. Experienced in collecting, cleaning, and analyzing data using NumPy and Pandas, and creating clear visualizations with Matplotlib to support insights. Has hands-on exposure to Machine Learning workflows, Generative AI concepts, and RAG-based systems using open-source LLMs like Ollama. Interested in applying data-driven thinking to build predictive models and intelligent systems, with a long-term goal of growing into Machine Learning and Data Scientist roles.

Experience

Entrust Software & Services Pvt Ltd — DLF, Chennai
IT Intern — 06/2024 - 07/2024

- Created an internal tool aimed at optimizing production workflows and enhancing efficiency.
- Developed a Flask application to make the tool usable only inside the company by employees.
- Collaborated with the team to gather requirements and deploy the tool internally.
- Gained practical experience in web development, Python programming, and internal application deployment.

Sri Ramakrishna Math — Chennai
AI Engineer — 12/2025 - 01/2026

- Built and deployed on-premises Generative AI systems using Ollama with open-source LLMs
- Customized and extended Open WebUI to support internal knowledge bases
- Implemented Retrieval-Augmented Generation RAG pipelines with embeddings and vector similarity search for enterprise documents

Ramakrishna Mission Vivekananda College — Chennai
Placement Representative — 07/2025 - Present

- Act as a point of contact for students, sharing information about placements, drives, and company updates.
- Supported the placement cell during aptitude tests, interviews, and recruitment activities.
- Support coordination and smooth execution of placement events and processes.

Volunteering

Ullas Trust
Higher Education Scholar — 02/2024 - Present

- Help mentors conduct sessions for students focused on soft skills, motivation, and personal development.
- Support classroom activities and maintain student engagement during sessions.
- Participate in community education initiatives while strengthening communication, teamwork, and leadership abilities.

Technical Skills

Programming Language: Python

Frameworks and Modules: Sci-Kit learn · Flask · FastAPI · Numpy · Pandas · Matplotlib · Seaborn

Tools and Platforms: Git · GitHub · VScode

AI/LLM Frameworks: LangChain · Ollama · Hugging Face Transformers · GenAI Systems · Open Source LLMs

Education

Ramakrishna Mission Vivekananda College — 2023 - Present
Bachelor of Computer Application- CGPA 8.06

Santhome Higher Secondary School — 2023
12th Standard - 76 %
